

**Question:** If your body is a sanctuary of the Hearts of Jesus and Mary, does it mean they are acting in you and living in you?

**Answer:** With the gift of Living in the Divine Will there comes a newly actualized indwelling of the three divine Persons in the human soul and body. This may be referred to as a *psychosomatic Triune indwelling*. This triune indwelling establishes within the individual's soul and body Jesus' "Real Life". Jesus' Real Life derives its efficacy from his "Real Presence" in the consecrated Host. In the soul in whom the Trinity indwells, the three divine Persons are respectively operating through the soul's will, intellect and memory; in the body's through its heart, lifeblood and breathe. Subsequently the individual's every thought, word and action are *truly* the thoughts, words and actions of Jesus in whom the Father and Holy Spirit operated. This triune operation in the human being establishes Jesus' Real Life in the soul, whereby he may refer to it as his "living Host".
